SURE TO CARRY NEW YORK

Republican Leaders Think There is Little Doubt of Success.

HOW HILL'S ATTITUDE HURTS CLEVELAND

Friends of the Senator Are Aware That He is at Heart Bostile to the Ex-President, Consequently They Keep Their Knives Sharp.

WASHINGTON BUREAU OF THE BEE,) 513 FOURTEENTH STREET, WASHINGTON, D. C., Sept. 25.

"Harrison and Reid will carry New York beyond the least doubt and they will be elected." This statement was made today by Chairman Carter of the republican national committee in a private conversation with a personal friend. It is a statement based upon actual knowledge of the situation and what is being done and was intended not for deception or public use but as information to a friend. Further than this Chairman Carter would say nothing. He uttered no words to indicate what is being done by the republican management. Mr. Carter came here to consuit President Harrison and left for New York late tonight.

Ex-Congressman J. B. Cheadle of Indiana spent yesterday at the national republican headquarters. He was here this morning and left for Indianapolis at 2 o'clock this afternoon.

"We are just as sure to carry New York," said Mr. Cheadle to THE BEE correspondent. "as election day is to come around. The support of Cleveland by Senator Davia B. Hill is only skin deep. It is hurting Cloveland vastiv more than anything else. It simply arouses Hill's friends against the expresident every time the senator shows him-self. The Hill element knows that Hill does not want Cleveland elected, and the entire following becomes wild with anger when-ever their leader appears to speak for Cleve-land. They are determined to beat Cleve-land. Leaving confident pow that Indiana will give her electoral vote for Harrison and Reid."

President Harrison's Work.

President Harrison has not been outside the white house since his return to Wash-ington, except late on Friday and Saturday nights, when he made pilgrimages through the streets and lots surrounding the executive mausion to be sure that every precaution was being taken to aid in Mrs. Harrison's recovery. The president has worn a black slouch hat pulled down over his eyes in order that he might not be recognized by the visitors, a remnant of whom still remain.

Special attention has been given to Grand Army place just in the rear of the executive mansion, where thousands of veterans have been camped during the last week. The gutters have been filled with stagnant water and the entire area was ankle deep in deeris. The president felt that it was just the spot where disease might find a orders that a large force of men should be set at work to put the grounds in perfect sunitary condition. They worked all last night and as a result the water is pumped out of ditches, the debris is removed and the greensward begins to present its old ap-pearance of brightness.

While men were at work last night Mr. Harrison mude one of his tours incog. He gave suggestions as to how the cleaning should proceed and what points needed the most thorough scouring. It is only one of many ways in which the president gives the most careful personal attention to every detail which may be conducive to Mrs. Harrison's recovery.

large percentage of business carried by the Missouri Pacific, especially as to certain commodities. Fifth class freight includes iron nails, wire, sugar, etc., and this one road carried 30 per cent of that class. It also carried 70 per cent of the hard coal and 60 per cent of the miscellaneous tonnage Considering that there are ten lines compet ing for traffic at the southwestern Missour river points, and that the Missouri Pacific no Chicago line, the showing scems

It was in June that the "High Five," the commissioners of the Western Traffic association are dubbed, ordered the Missouri Pacific to divert traffic to the Wabash. They are still corresponding about it. No di-versions have been made by the Missouri Pacific and before the correspondence is concluded the Western Traffic association it is said, have been disbanded. The chison, the Burlington and the Alton were ordered to divert at the same time. The Alton declined to go so. The Atchison began to comply, but stopped to await the action of the other roads. The Burington alone promptly obeyed the order, completing the diversion before it was aware that the other lines were not pursuing a similar

As the agreement should be binding upo none it is not improbable that the Burlington company will call on the cor missioners to reimburse it in some way for its loss, and it is evident that a new tonnage pool or some better sort of agreement is sadly lacking in the southwestern territory.

The complainants allege overcharges on over 30,000,000 pounds of meat shipped east. The destination of every pound is itemized, together with the rates charged by the various lines and what should have been charged. By far the greatest offender against Armour & Co., as shown in the record, is the Philadelphia & Reading Railway company. Duting the peas shown in the record, is the Philadelphia & Reading Railway company. During the period in which the overcharges were made the plaintiff company shipped 1,109 cars of meat over the Reading road to various eastern points. These cars carried 27,201,261 pounds of meat. The rate charged per 100 pounds was between 60 and 70 cents, while it is claimed the regular and fair rate was and should have been but from 36 to 45 cents. FOREIGN FINANCIAL REVIEW.

Discounts Were Advanced Last Week as a

Result of Good Business, LONDON, Sept. 25.-A better supply of bills, mainly connected with shipments of cotton and other produce, slightly advanced discounts last week, but this advance was not maintained owing to the competition of French bankers for both commercial and treasury bilis. The difficulty of using surplus funds is shown by the resolution of the Scottish banks of London to discontinue the usual I per cent interest on credit balance of current accounts. The statement that the issue in the Austrian currency loans would probably be deferred until 1898, contributed to weaken the market. It is not considered probable now that the Bank of England rate will advance this autumn.

On the Stock exchange the past week signs that the holiday season was entering were manifest. The attendance was augmented and there was a sensible increase of business. At the same time a more confident feeling prevailed, owing to the subsidence of alarm in regard to the stability of various building societies and more favorable re-ports of the situation as regards choices. British funds were weaker, out Indian and colonial securities were higher. At first foreign government securities advanced, owing to Paris buying, but afterwards weakened, owing to the falling of of the French demand, which appears to be the mainspring of the foreign market in which British investors have little interest. Turkish were especially strong and advanced 2%.
Mexicans rose 1% on the official denial of
the report that a fresh loan is impending. South American issues were well sup-ported. Brazilian and Argentine securities closed a point higher on the improved com-mercial situation in the two republics. In English railway securities there was a general advance though little business was transacted except in the shares of heavy lines, in which, owing to satisfactory traffic returns a good business was done. Tues-day's weakness in the American railroad department was quite eclipsed by the subse-quent firmness. The chief exception to an almost general advance was in Northern Pacific, whose weakness was due to bad dividend prospects. The chief advance was in Readings, which were in strong favor.

The week's variations in prices include the following: Increases—Readings second in-comes, 314; Reading third incomes, 3; comes, 3½; Reading third incomes, 3; Watash mortgage and Reading firsts, 2 each; Atchison mortgage and Lake Shore, 1½; cach; Atchison ordinary, 1½; Wabash preferred, 5½; Central Pacific, ½. Decreases—Northern Pacific, 2½; Louisville & Nashville, 1½. Grand Trunk of Camoa advanced on the announcement that rates would be restored on October 10, but there was a subsequent relarge, leaving little adwas a subsequent relapse, leaving little advence on the week. For Brazilian railway lines there was a good market in view of the improved exchange. In Argentines, Buenos Avres Southern closed 3 points higher. The securities of the Mexican railway gained a

On the Berlin Bourse. BERLIN, Sept. 25 .- During the week past on the bourse German funds were weaker, owing to prospects of new issues. It is ap-parent that many believe that previous loans are not yet fully absorbed by investors. Con-sequently new loans are likely to meet with a bad reception. Coal and iron shares were depressed. Rumors of an increase in the tax of bourse transactions are causdiscontent among bankers and brokers, who declare that their business is hardly paying now, and that an increased tax will reduce their profits to the their vanishing point. Saturday's closing quota-tions included: Prussian 4s, 10.90; Hungarian gold rente, 95.60; Austrian credit, 166; Bochumers, 137; Harpeners, 142; long exchange on London, 20,3014; private dis-

point owing to improved traffic prospects.

On the Paris Bourse. Paris, Sept. 25.-Business was brisk on the bourse the past week, the general public absorbing a great deal of stock. Interna tional stocks improved slightly. Bank shares were well favored. Bank of France 65 centimes and Bank of Paris france. There was a reaction in favor o uez canal shares which advanced the price 1114 francs. A good investment business was done in railway securities which profited by a general advance of from 5 to 35 francs. Panama canal shares continued to full and closed Saturday 114 francs lower for the

On the Frankfort Bourse. FRANKFORT, Sept. 25.—The bourse the past week was featureless. Yesterday's closing quotations included: Hungarian gold rente, 55.70; Mexican 6s, 79, a point better; Austrian credit. 264; private discount, 214.

DESPERATE LUMBERMEN FIGHT.

I wo of the Men Cut to Pieces with Axe in a Drunken Quarrel.

DETROIT, Mich., Sept. 25.-A special dis patch from Hartford, Mich., says that five drunken lumbermen had a desperate fign near Coveret yesterday, which resulted in the death of two of them. Morris Cassel man, George Casselman, J. Van Amen, C. Burton and L. Strouble, having been pair off-chipped in and bought a gallon of whisky which they took to work with them. Drink lowed drink until all thought of labor had fled and the crowd became uprogrious. During some rough skylarking, one of the casseimans became angered and struck at

The keen axe wielded by one of the injuriated woodsmen descended and buried itself in the quivering flesh of George Casselman, who sauk to the earth, fatally wounded. Van Amen suc-ceded in inflicting a slight wound upon his

opponent, but was in turn cut down, and lay dying on the ground. The sight of their terrible work sobered Burton and Strouble who threw away their axes and fled from the horrible scene. Morris Casselman, as soon as his wounds would allow him, made his way to the cabin of a lumberman and made known the details of the fight. The sheriff was notified and at once set off in pursuit of the murderers, who are supposed to be in hiding in the woods.

HANK FRELL SHOT BY HIS NEPHEW

Jesse Freel's Horses Were Killed by a Unknown Person and He Held His Uncle Responsible for the Ameir.

NEWCASTLE, Wyo., Sept. 25.-[Special Telegram to THE BEE |- A family foud, which has existed for a long time in the Freel family of Stockdale, on Beaver Creek, in the eastern part of Western county, cul minated last night in the shooting of Hank

Freel by his nephew, Jesse Freel. A short time ago Jesse's horses disappeared from his father's pasture, and were found a day or two since shot through the head. Hank Freet was arrested on the charge of killing the horses and was brought to Newcastle last evening by sheriff Stack. He demanded an immediate examination, and as he came out of the building occupied by the county officers, Jesse stepped quietly up behind and before anyone was aware of what he was doing shot his uncle in the back of the head with a 44-calibro revolver, the ball passing near through the head and louging near the frontal bone.

Another shot was then fired by some one supposed to be Hank's brother Jack, at Jessie, which just grazed his fingers, causing him to drop his gun. Before more shooting could be done the officers had secured Jesse and Jack and placed them in jail. The man shot is still alive but no one has any hopes of his recovery.

BUFFALO'S PROSPECTS IMPROVED.

Fort McKinney's Old Military Reservation Opened for Settlement. BUFFALO, Wyo., Sept. 25 .- [Special to THE BEE. |-There is reason to believe that this city is about to attain a great development. The strip of land recently released from the military reservation of Fort McKinney and purchased by the city has been surveyed and the plat of the larger part completed. After setting aside sixty acres for a cemetery and retaining twenty-five acres for a public park the remainder has been offered for sale under certain restrictions. Five acres have seen deeded to the school trustees and several more allotted for a market square

and municipal buildings. Yesterday 237 residence lots were offered for sale. Not more than two lots will be sold to the same purchaser and the price is set at \$100 a lot. Of this \$10 must be paid at once and the balance by monthly install-ments of \$7.59 a month. Interest is to be charged on the deferred payments at the rate of 8 per cent a month. Fifty-one lots were sold on the first day and the remainder are going off rapidly, though more care is being taken in their selection.

The money to be derived from the sales is

to be apportioned as follows: Two-thirds to the new water system and the balance to other municipal purposes. The public park, from which the adultion takes its name, is situated on both sides of Clear creek, which is here well timbered, and consists of undulating ground of great natural beauty, and capable of being made, by skillful improvement, as choice a piace of recreation for its

size as any city can boast of.

The residential blocks, which surround the park on three sides, will command an uninterrupted view of the Big Horn mountains, and look directly upon the park. The re-maining portion of the new strip will lie on the north and south sides of the B. & M. railway. The position of the city has great natural advantages and gives security for its permanent importance. Artesian wells have proved successful in every case, and the railway is now within about forty miles and will soon be here.

Following the above mentioned sale of city lots has taken place a very considerable transfer of real estate, in the older portions of the city. The Burlington hotel has bee bought by a Nebraska investor for \$10,000.

THE DEATH ROLL. General James W. Husted Passes Away at

His New York Home. PERSKILL, N. Y., Sept. 25. - General James W. Husted died at his residence here at 7:30 p. m. tonight. At his deathbed there were gathered Dr. Maron, the attending of sician, Mr. Husted's wife and sons, The mas, William and J. W. Husted, jr., and his two daughters, Mrs. Frederick Sheed and Mi

General Husted was taken til on his way to the republican convention in June last. He left New York with the republican delegates and before he arrived at Minneapolis he was taken down and it was feared that he would expire before reaching his destination. As soon as he was taken ill some of those on board the train administered to him a dose of medicine, and it is said that it was an overdose and caused the illness from which he died tonight. After the convention the general was brought home to Peekskill in a special car and taken to his residence, where he remained, hovering between life and

Today the general gradually grew worse, and at about 4 o'ctock began to sink, dying four hours afterwards. He passed away peacefully. He was conscious to the last. General Husted was born at Bedford, Westchester county, New York, on October 18, 1833. He graduated from Yate college in 1854, one of his schoolmates being Dr. Chauncey M. Depew. He was admitted to the bar in 1857. He has held many public offices, and has had the longest legislative service of any man in the history of the state—eighteen years. He also had the dis-tinction of having been speaker of the house

legislature more times than any other man, having been speaker six times.

For over thirty years General Husted had been in active pointical life. He became a member of the republican party in 1859 and attended its national conventions as a delegate in 1876, 1880, 1881 and 1892. The de ceased had also taken an active interest in the national guard of the state, being a mem ber of the organization and serving as judge advocate of the Seventeenth brigade and major general of the Fifth division. Mr. lusted was a distinguished member of the Masonic frateralty and once held the posi-tion of grand master of that body. He was also a 33 - Mason.

LIFE'S JOURNEY ENDED.

oved Ones Laid to Rest at Forest Law Cemetery Yesterday. The funeral of Mrs. H. T. Clarke was held at the family residence, 2509 Cass street, at o'clock yesterday afternoon.

The house was filled with the large gather ing of friends, many of whom had known and loved the deceased for many years. The services were exceptionally solemn and impressive. The casket in the front parlor was almost entirely concealed by banks of pink roses and ferns and reposed on a carpet of the same material. The overhauging chandelier was artistically draped with roses and ferns and the adjoining rooms were draped with white and yellow roses.

The funeral discourse was preached by Rev. Joseph T. Duryen of the First Congre gational church. He prefaced his remarks by reading the psalm, "The Lord is my shep-herd, I shall not want." He spoke with great earnestness of the pure and consistent life of the deceased and directed the hopes of the bereaved family circle and the many corrowing friends to a reunion in the celestial world.

Interment was at Forest Lawn cometery, where the hands of friends had prepared the grave for the reception of its burden. Handfuls of purple astors and sprays of golden rod lined the grave and every vestige of earth was covered with flowers. It was a beautiful idea which robbed the grave of nuch of its harsh suggestiveness, and as the casket was lowered into its resting place of flowers the open grave seemed more like a couch of fragrant blossoms than a tomb. The pallbearers were Dr. George L. Miller, Howard Kennedy, William Preston and

ermont's Late Election Produces a Very

Queer Combination. NEW YORK, Sept. 25 .- Bradley B. Smalley, nember of the democratic national committee and late a candidate for governor of Vermont, announced tonight that he had made a discovery which, if contested, gives to Allen, the prohibitionist, the office of governor of Vermont. Mr. Smalley said that while Allen received but 1,200 or 1,500 votes, he was the only canildate for the position who is eligible. If the conclusions of both Chairman Carter of the republican and Chairman Harrity of the democratic national committee are correct. neither he nor Levi K. Fuller, the republican candidate who received a majority of

about 19,000 are elected. By the advice of counsel, both chairmen have written a letter advising any persons who may have been nominated for presidenini electors who are directors of national banks, or who hold public offices of trust or profit, to withdraw for fear that they might prove to be ineligible.

g"The fact is," said Mr. Smalley, "that under this construction, both Mr. Futler and myself were incligible, for we are both directors of a national bank. The constitution of the state of Vermont is very rigid on this point and besides affecting Mr. Fuller's election, it will also debar several members of the legislature from being sworn in."

Telegram to Tue Bee. |-The striking operutors feel more confident today of winning than at any time since the manguration of the strike. A union meeting of all railroad organizations was held in this city last night at which a committee was appointed, representing eight organizations, to wait upon the officials of the road tomorrow morning at 10 o'clock for the purpose of requesting them to submit this matter of differences between them and the operators to arbitration and settle at once.

They will contend that they believe it un-

safe to run over the road upon train orders issued by such incompetent men as are now handling the keys. In case of a refusal o the officials to do this the other organizations will then have a grievance and a general strike will be the result. The strikers say encouraging reports are coming in from all parts of the system and that the new men who were induced to take the places of the strikers continue to come out. Five men be-tween Cedar Rapids and Burlington left their offices today and on the other division the ratio is about the same.

Will Complete the Survey This Year. Sioux Cirr, In. Sept. 25 .- | Special Telegram to Tits Bes. | - Work on the government survey of the Missouri river between this city and Fort Benton, which has been in progress for two years, will be completed this fall. The survey includes soundings of the river. On it the War department will probably base a request for river improve-ments to confine the water in shallow places so as to cut a channel to pass boats over and prevent obstructions to the reviving com-merce on the upper river. No estimate of the amount needed has been prepared.
